this volume contains the proceedings of the 50th colloquium biblicum lovaniense the 40 contributions written in english french and german focus on the canons of the old and new testament as well as those of the bible as a whole the theme is studied from a variety of historical hermeneutical and biblical theological points of view several contributions discuss the process that resulted in the canonical status of certain writings or groups of writings in particular such as the book of psalms ezekiel the wisdom of ben sira the pauline corpus acts and the gospels

a critical rethinking of the way canons are defined constructed dismantled and revised a century ago all art was evaluated through the lens of european classicism and its tradition this

volume explores and questions the foundations of the european canon offers a critical rethinking of ancient and classical art and interrogates the canons of cultures and regions that have often been left at the margins of art history it underscores the historical and geographical diversity of canons and the local values underlying them twelve international scholars consider how canons are constructed and contested focusing on the relationship between canonical objects and the value systems that shape their hierarchies deploying an array of methodologies including archaeological investigations visual analysis and literary critique the authors examine canon formation throughout the world including africa india east asia mesoamerica south america ancient egypt classical greece and europe global studies of art which are dismantling the traditionally eurocentric canon promise to make art history more inclusive but enduring canons cannot be dismissed this volume raises new questions about the importance of canons including those from outside europe for the wider discipline of art history

what is a canon and why does it matter in confronting our canons spanish and latin american studies in the 21st century joan l brown shows that a canon has the power to define a field and determine what is taught she argues that it is both productive and necessary to confront our canons to see what is actually in them and how these works and authors got there only then can educators take charge of their teaching canons and by extension their disciplines brown demonstrates that there is little agreement in the reported teaching canons in english and spanish analyzing twentieth and twenty first century required graduate reading lists in spanish and latin american literature in the united states she finds that the core literary canon for graduate students is less comprehensive than the spanish advanced placement reading list for high school students she encourages the field of hispanic studies curators of the cultural patrimony of our country s second language to take the lead in developing a diverse flexible shared foundational canon at the graduate level before the arbiters of best practices do this for us

christopher stephens focuses on canon law as the starting point for a new interpretation of divisions between east and west in the church after the death of constantine the great he challenges the common assumption that bishops split between nicenes and non nicenes arians or eusebians instead he argues that questions of doctrine took second place to disputes about the status of individual bishops and broader issues of the role of ecclesiastical councils the nature of episcopal authority and in particular the supremacy of the bishop of rome canon law allows the author to offer a fresh understanding of the purposes of councils in the east after 337 particularly the famed dedication council of 341 and the western meeting of the council of serdica and the canon law written there which elevated the bishop of rome to an authority above all other bishops investigating the laws they wrote the author describes the power struggles taking place in the years following 337 as bishops sought to elevate their status and grasp the opportunity for the absolute form of leadership constantine had embodied combining a close study of the laws and events of this period with broader reflections on the nature of power and authority in the church and the increasingly important role of canon law the book offers a fresh narrative of one of the most significant periods in the development of the church as an institution and of the bishop as a leader

when first published in 1958 this text became the standard account of the canons passed by the western bishops assembled at serdica in 343 and the thinking on church matters that lay behind them this edition adds further material and research tools

this important contribution to the canon debate is remarkable in examining the actual process of canon formation from threee unusual and complementary angles the first two chapters discuss historical attitudes to canons from antiquity onwards showing the religious aesthetic cultural and political interests which have shaped our modern critical canons each of the four succeeding chapters examines an exemplary defendant interpreter or critic of canons ernst gomrich northrop frye frank kermode and edward said a final chapter considers the origins and rationale of the contemporary debate emphasising the disciplinary and aesthetic problems we must confront if our cultural institutions are to meet the challenging needs of the next century professor gorak teaches at the university of denver his publications include god the artist 1987 critic of crisis 1987 and the alien mind of raymond williams 1988

not only inefficiency but frustration disorder anger and injustice threaten all human endeavors no matter how pure their motives or high their ideals that s why successful organizations always create employee handbooks and clear procedure manuals that delineate where authority lies how conflicts are to be resolved and above all how each organization s mission is and is not to be accomplished is it any wonder then that the catholic church comprised not of 200 persons but 1 2 billion members in 200 countries also governs itself by means of a handbook which it calls the code of canon law because handbooks and manuals concern themselves with the day to day inner working of organizations they often reveal more than do news releases about the actual purposes and genuine spirit of organizations a fact that s particularly true in the case of the catholic church indeed if you want to know the church for who she is you need to be familiar with the code of canon law unfortunately it contains over 1 752 rules or canons among them you ll find fascinating canons that lay out the church s official principles and procedures governing matters as various as abbots and annulments scandals and sacraments monks and missions bishops and books priests and popes synods and sacraments homeschoolers hostile witnesses baptisms burials parishes penance confessions councils impotence imprimaturs and even marriages to the person who murdered your spouse thankfully vatican expert and veteran author fr laurence spiteri has in the pages of canon law explained relieved you of the need to read all 1 752 of them fascinating or not here he acquaints you with the fundamental canons by which the church seeks to bring about as it declares in the very last canon the purpose all of them serve the salvation of souls which must always be the supreme law in the church fr spiteri s brief but lucid explanations of the origins and meaning of the canons make sense of much that puzzles non catholics about our church and that sometimes frustrates even us catholics as he relates the church s laws and procedures directly to christ s command to go forth and teach all nations and to the role those laws and procedures play in your salvation and mine fr spiteri transforms what seem to be dry as dust rules into the sweet waters of salvation if you want to know the church for who she is and to love her more canon law explained is the book for you
